

Mountain Bike Trail Areas

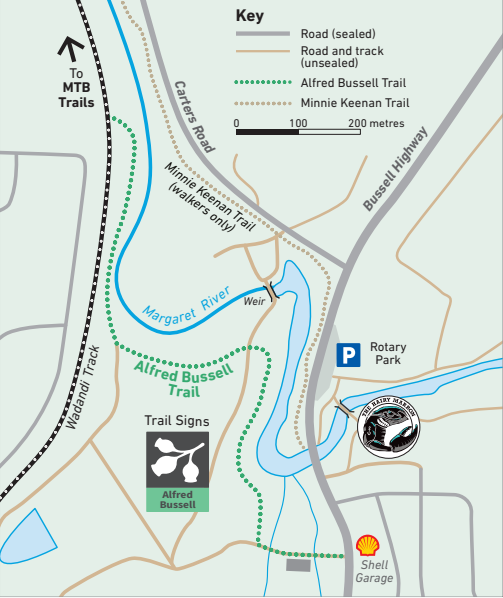

Wooditjup Trail Network (Pines and Wooditjup)

The original Pines trails were built by locals in the early 2000s. The Wooditjup Trails (previously known as Compartment 10) were added from 2016 onwards and feature short, fun trails in a variety of styles. The original Pines plantation has been logged and exciting new trails were built during 2021. The finished Wooditjup/Pines area contains trails ranging from green to black, with a double black jump line planned for the future. The Wooditjup Trail Network is periodically changing, so refer to the trail maps at each trail head for updates.

Creek MTB Trails

Sometimes referred to as South Carters, the Creek Trails are mostly hand-built, twisty and tight. Built by a small group of local MTB pioneers 20 years ago and maintained by the local riding community today, the Creek Trails offer a stunning natural experience with features crafted from the landscape and some interesting ladder structures, as the eponymous Creek is traversed at several points.

Getting to the MTB trails

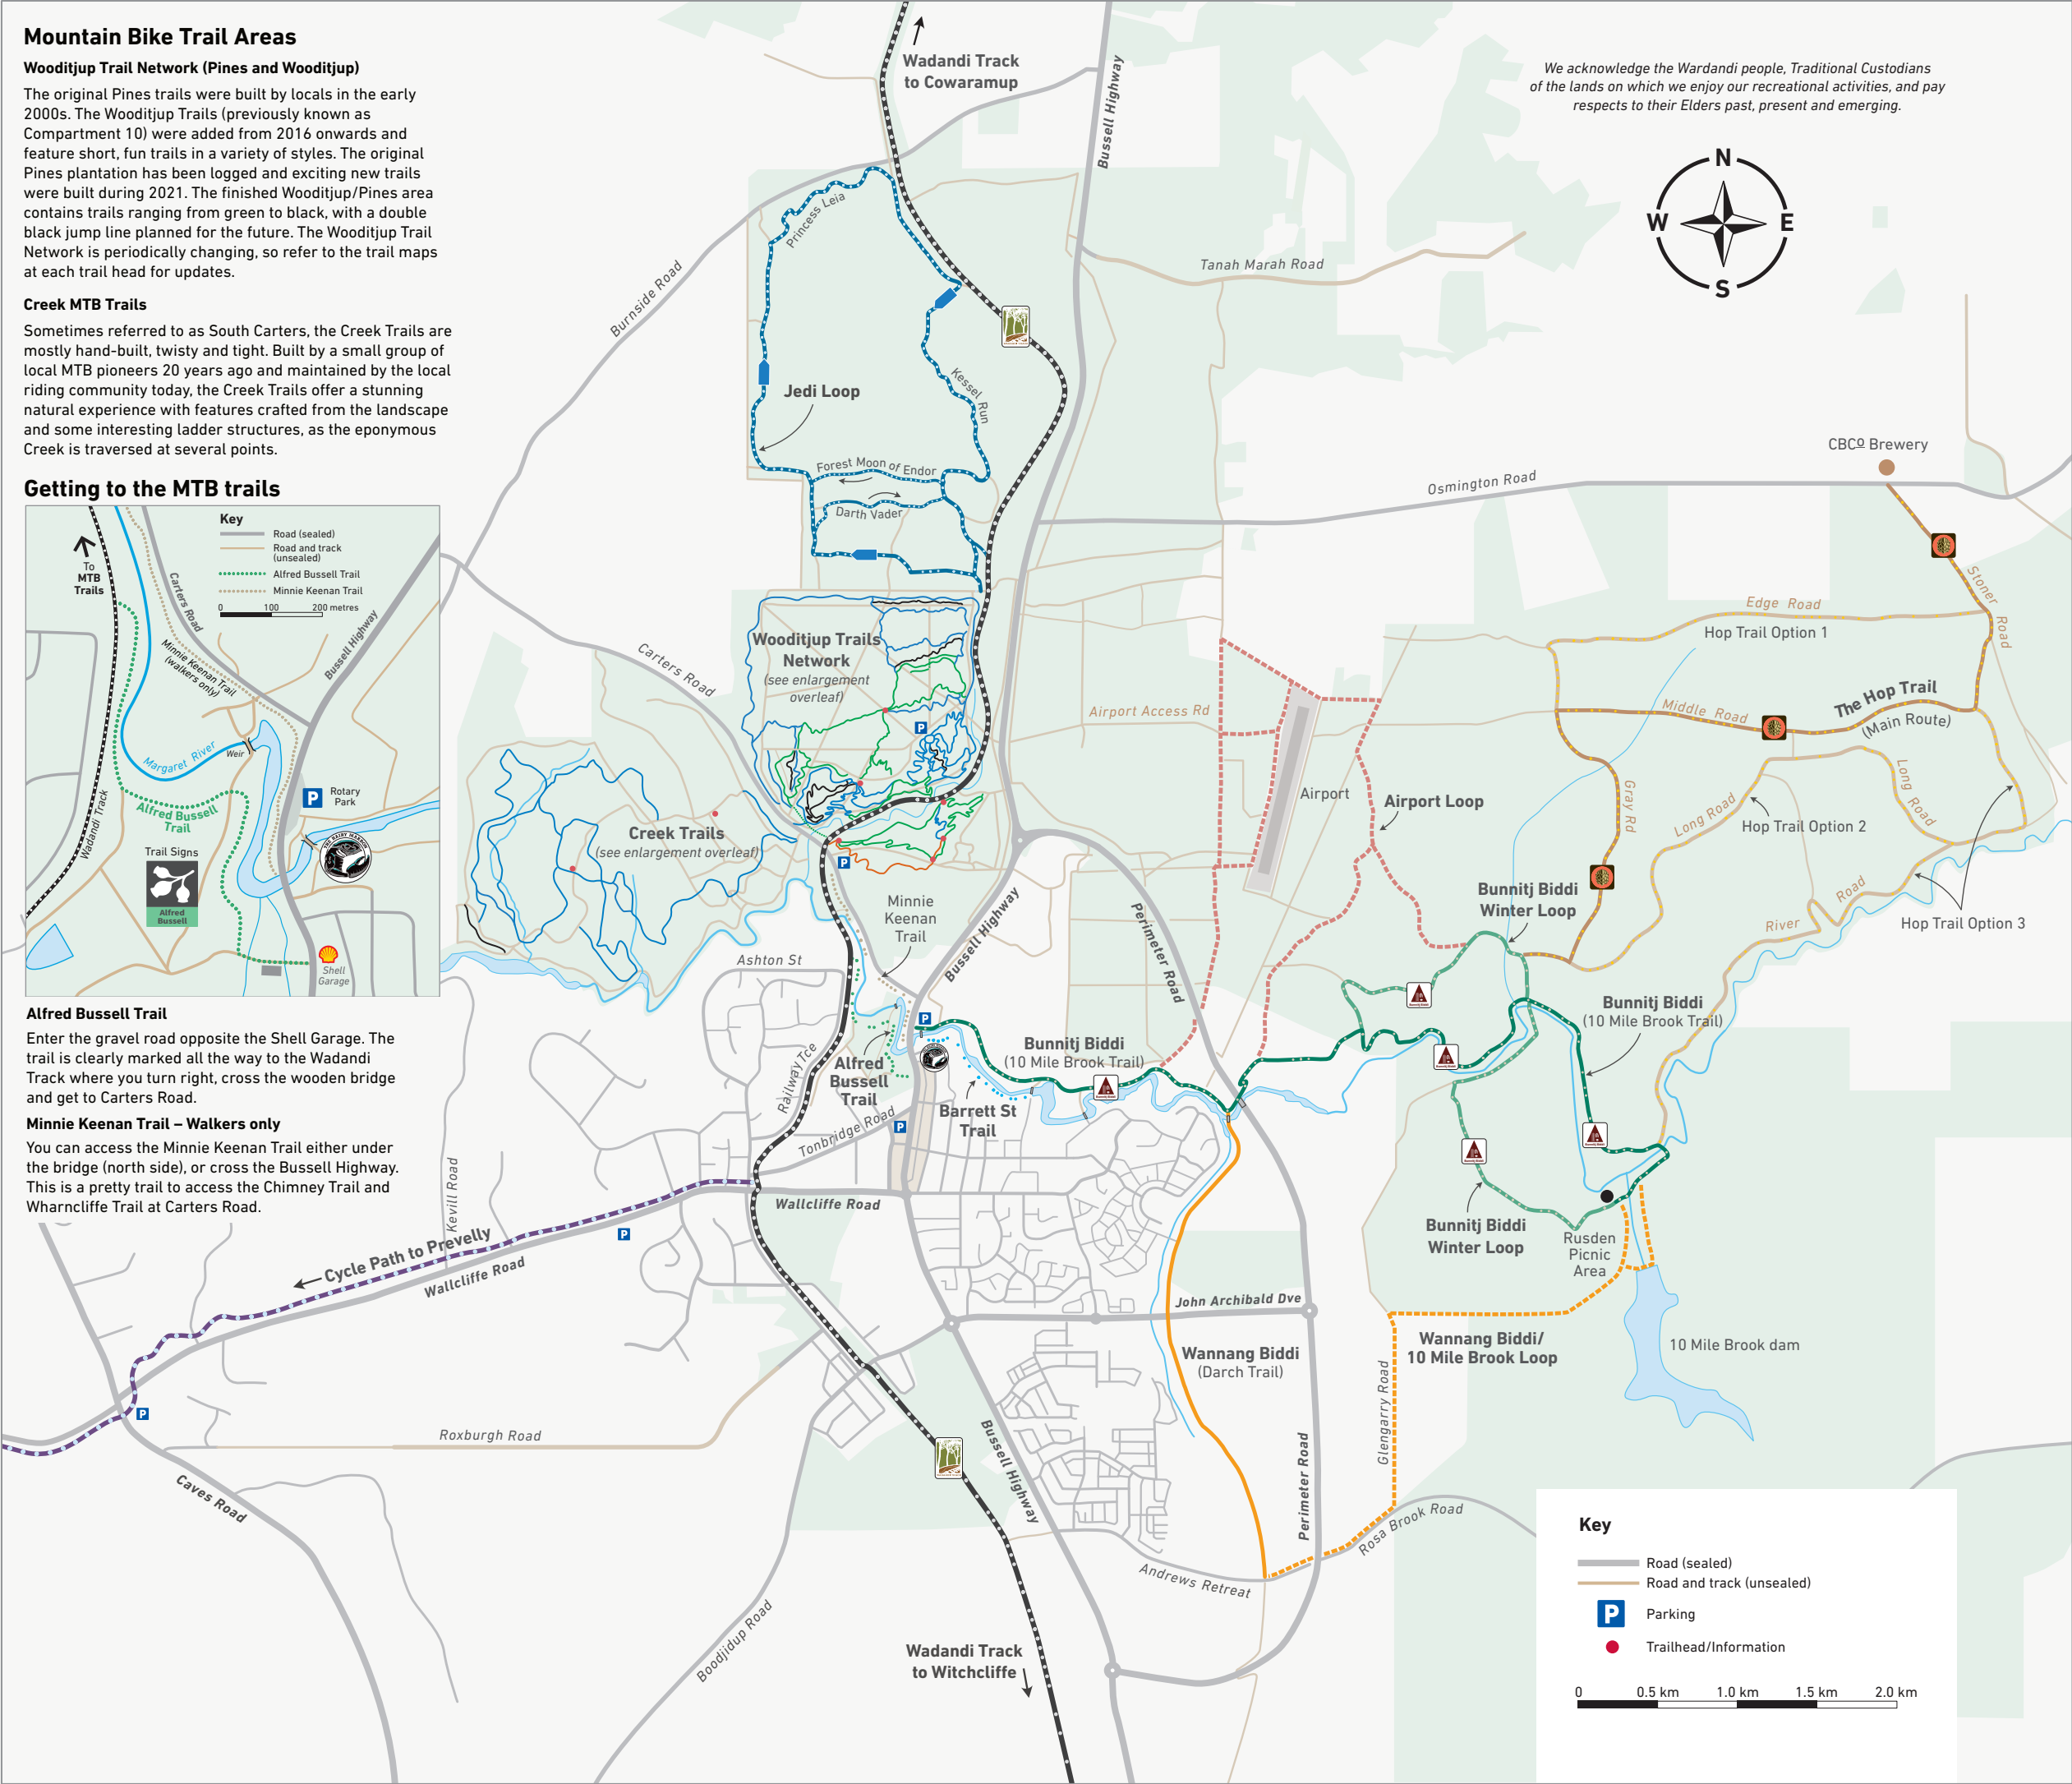

Alfred Bussell Trail

Enter the gravel road opposite the Shell Garage. The trail is clearly marked all the way to the Wadandi Track where you turn right, cross the wooden bridge and get to Carters Road.

Minnie Keenan Trail – Walkers only

You can access the Minnie Keenan Trail either under the bridge (north side), or cross the Bussell Highway. This is a pretty trail to access the Chimney Trail and Wharncliffe Trail at Carters Road.

Walk and Cycle Trails

Wadandi Walk/Cycle Track

Currently runs from Cowaramup, 15 km from Margaret River and on to Witchcliffe, a further 10 km away. This is an excellent trail for riding with the family. Trail surface is mostly good, but there are a few muddy sections in winter.

Prevelly Walk/Cycle Trail

A sealed trail (approximately 10 km) from Margaret River town (starts at the roundabout intersection with Railway Terrace) which follows Wallcliffe Road and continues over Caves Road down to Prevelly and the river mouth.

Bunnitj Biddi Walk/Cycle trail (formerly 10 Mile Brook Trail)

Starts from Rotary Park and follows the northern bank of the Margaret River, past the traffic and footbridges at Perimeter Road. The Bunnitj Biddi continues on and crosses the Margaret River before doubling back to 10 Mile Brook Dam, where there is a picnic area. Some sections of the Bunnitj Biddi become flooded after winter rains, so there are two sections of 'winter route', recommended between July and October.

Wannang Biddi Walk/Cycle Trail (formerly Darch Trail)

Runs from the Bunnitj Biddi at the Margaret River footbridge, crosses John Archibald Drive and ends at Andrews Retreat (formerly Rosa Brook Road).

Barrett Street Trail

Runs from the south side of Rotary Park, near the Hairy Marron, to the Barrett Street Weir. Be careful as it's a popular walk trail. Cross the Weir and return along the Bunnitj Biddi for an easy loop.

Alfred Bussell Trail

A safe, wide and easy signposted route to get to the MTB Trails, Wadandi and Jedi. A preferable alternative to Minnie Keenan Trail, with less interaction with walkers.

Minnie Keenan Trail

Narrow single track walk and cycle trail providing access to the MTB Trails, Wadandi and Jedi. Very popular with walkers, especially weekends - you may also encounter dogs, so please ride slowly. **Note: This trail closed to cyclists from 2022.**

Suggested Loop Options

Wannang Biddi/10 Mile Brook Loop

This loop consists of the Wannang Biddi, a small section of Rosa Brook Road, then gravel roads to 10 Mile Brook Dam before heading back on the Bunnitj Biddi, either summer or winter loops. A few solid climbs with a nice variety of scenery.

Jedi Loop

An excellent cross country loop, accessed via the Wadandi Track off Lears Road. Consists of some fire roads with a couple of fun singletrack sections. Most of the trail is easy, with a few simple features which beginners can tackle. The trail is marked by simple blue arrows affixed to trees.

Airport Loop

A selection of cross country loops (no directional signage) on the eastern side of town near the airport, with a few route options. Mainly fire roads (some quite overgrown) with the odd section of fun and fast single track. Undulating with mainly short ascents and descents.

Hop Trails

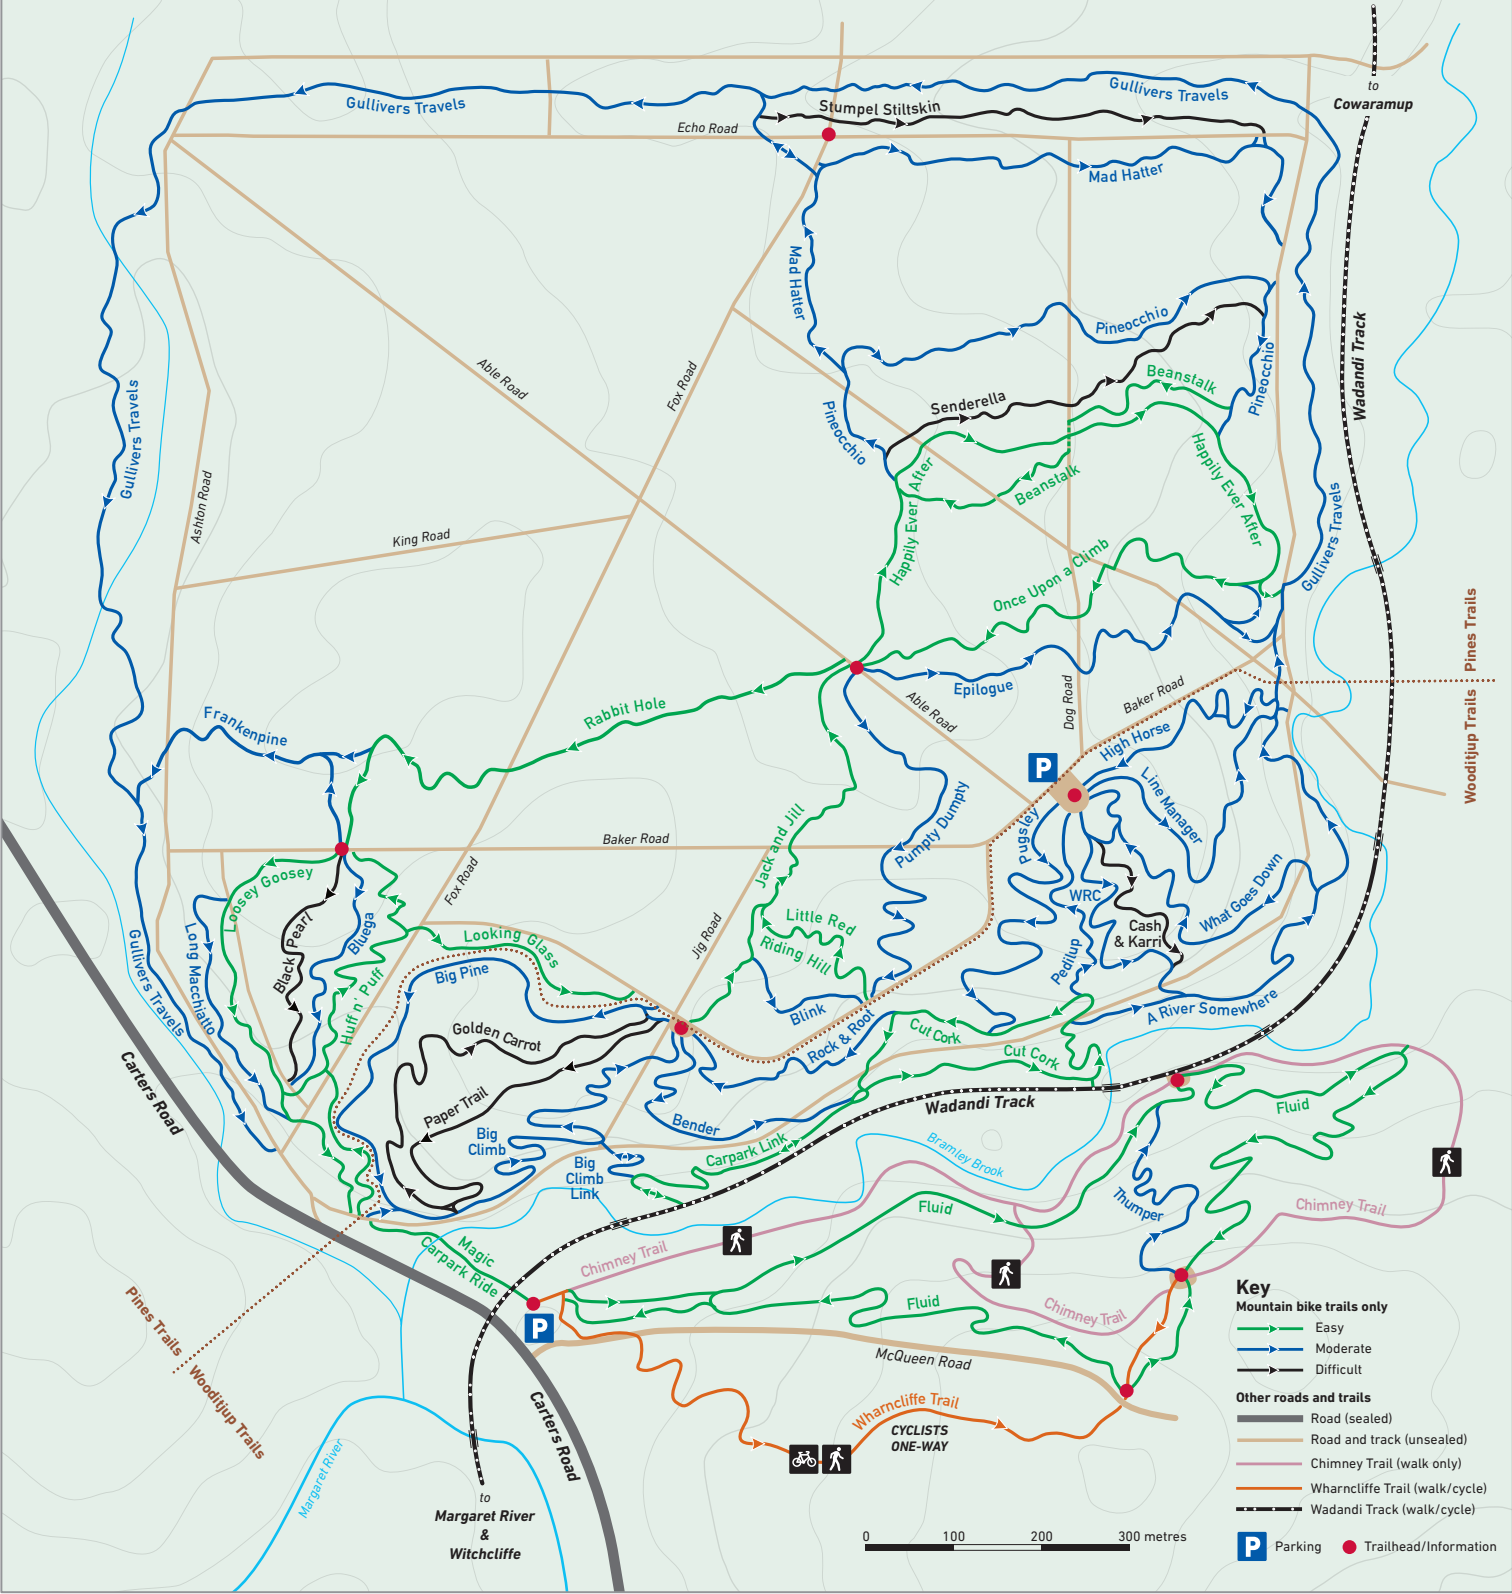

A choice of routes which can be accessed from the Bunnitj Biddi Winter Loop. The main route, mostly old forestry trails, is signposted. Optional routes are not signed at this stage and are quite wild with some fallen trees. Will pop you out on to Osmington Road close to the Colonial Brewery. If you take Option 3 of the trail, it will certainly test your legs.

Note: Maps in this leaflet have been compiled using information available at time of publication. Roads and tracks may be subject to change without notice.

Wooditjup MTB Trail Network

Comprising the Wooditjup and Pines Trails

Choose a trail which is within your capabilities. Mountain biking is potentially hazardous and attempting a trail beyond your skill level may result in serious injury.

Responsible Riding

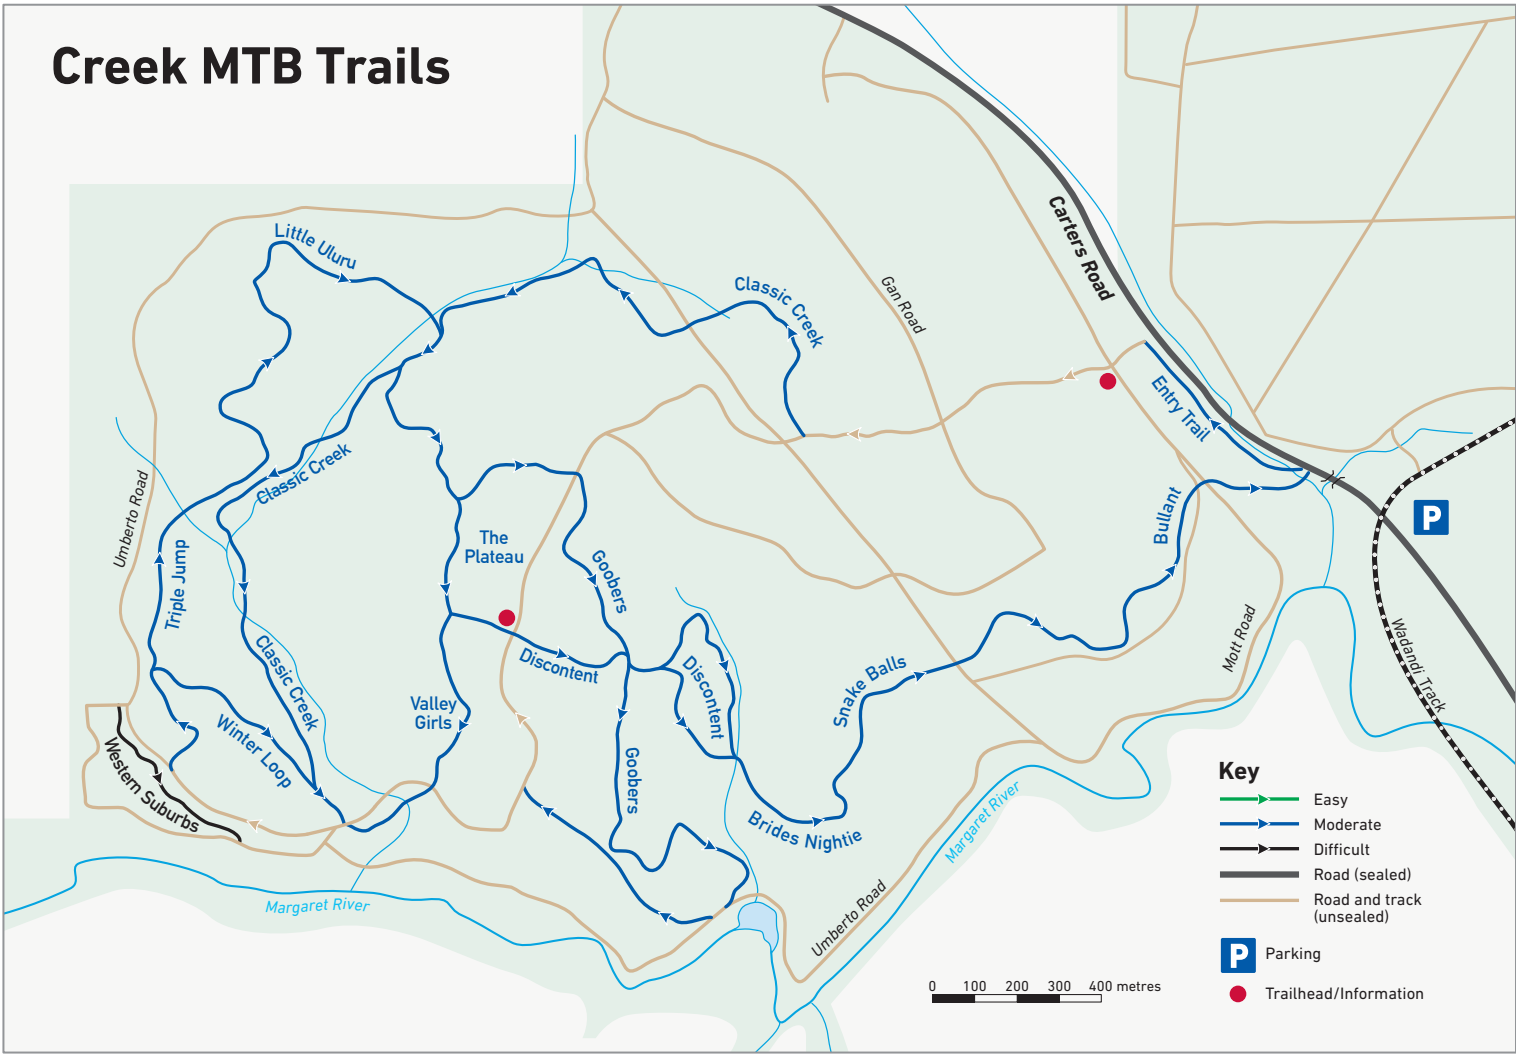

- 1 Ride Open Trails.** Respect trail closures and wishes of land managers. Ride trails only in the direction specified.
- 2 Leave No Trace.** Take out everything you brought in – do not litter.
- 3 Control Your Bike.** Ride within your limits and avoid skidding, which tears up the trail and causes braking ruts in corners.
- 4 Plan Ahead.** Know your equipment, your ability and the area in which you are riding and prepare accordingly.
- 5 Ride Within your Limits.** If you're unsure of an obstacle, get off and have a look to determine the best line. Don't attempt features way beyond your skills - work up to them.
- 6 If it's Wet.** If a trail has running or standing water on it, consider riding a drier trail to minimise trail erosion in the park.

Trail Rating System

(Note: Wadandi and other rail trails normally classified 'Easiest')

	Easiest	Fairly flat, wide and smooth, no significant climbs or difficult obstacles. (e.g. Wadandi and Wanang Biddi Trails)
	Easy	Gentle climbs, up to 1 metre width, good surface, obstacles up to 5 cm or avoidable.
	More Difficult	Steeper slopes, narrower trail, tight corners, obstacles up to 20 cm, rollable drop-offs, technical trail features up to 60 cm.
	Very Difficult	Variable surface, steep slopes, unavoidable obstacles up to 35 cm, loose rocks, unrollable drop-offs and gap jumps, technical trail features up to 1.2 m.

Creek MTB Trails

Bike Shop Sales, Hire, Servicing, Repair and Parts

Wide range of Giant and Kona mountain bikes to suit your skills and budget. Our hire fleet consists of fully serviced Giant hard tail and full suspension bikes and our knowledgeable staff will point you in the right direction. Our on site mechanics offer a range of service options and repairs are carried out quickly and efficiently, to get you back riding sooner!

Coffee, Snacks, Drinks and Ice Creams

Grab something from our tasty selection of coffee, toasties, muffins, drinks and ice creams and take in the view of the river and wildlife from our deck. In winter, we'll crank up the stove to keep you warm!

Hours of business
Monday – Sunday: 8.00 am to 4.00 pm (café)
Monday – Sunday: 8.00 am to 5.00 pm (bike shop)
